

HOUSE CHILDREN'S
HEARING CENTER

The House Children's Hearing Center is a comprehensive hearing center devoted to the evaluation, diagnosis, and treatment of the full spectrum of hearing conditions in children, from birth to 21 years of age.

OUR SERVICES

Pediatric Hearing Assessments - We conduct comprehensive and individualized hearing evaluations to accurately diagnose and manage hearing loss and other hearing-related conditions.

Hearing Aids & Cochlear Implants - We recommend and dispense an array of state-of-the-art hearing technology, such as hearing aids, cochlear implants, bone conduction devices, and other assistive listening technology to children who are candidates.

Education & Support Services - We provide unique and collaborative intervention services designed to promote health and well-being, including speech and language therapy and a variety of community-based resources.
